Abuzar Qasim — CV

Data Analyst | Data Science Student

Bahawalpur, Punjab, Pakistan · +92 303 6708329 · abuzrqasim5@gmail.com · github.com/iabuzrqasim

Summary

Data Science student at the Islamia University of Bahawalpur and certified Data Analyst who turns raw data into clear insights for business decisions. Works with Python (Pandas, NumPy), SQL, Power BI and Excel, with hands-on experience in machine learning, predictive analysis and statistical modeling. Brings software development experience from a 12-week full-stack fellowship, plus strong problem-solving and client communication skills.

Skills

- **Programming:** Python (Pandas, NumPy, SQLAlchemy), SQL (MySQL)
- **Data analysis:** Data cleaning, transformation and wrangling; exploratory data analysis; statistical analysis
- **Machine learning:** Predictive modeling, classification, data modeling
- **BI and visualization:** Power BI (DAX), Excel (pivot tables, dashboards), Microsoft Fabric (learning)
- **Tools:** Git, GitHub, Jupyter Notebook, Microsoft Office
- **Professional:** Problem solving, critical thinking, client relationship management, stakeholder reporting

Experience

Data Analyst — Self-Employed (Remote)
Bahawalpur, Pakistan · Oct 2025 – Present

- Collect, clean and analyze large datasets with Python (Pandas, NumPy) and SQL to find trends and patterns.
- Build interactive Power BI and Excel dashboards that track KPIs and support client decisions.

- Automated recurring data reporting to reduce manual work and speed up delivery.
- Run predictive analysis and data modeling to improve forecasting.
- Translate client business requirements into analytical solutions, keeping data accurate and consistent.
- Present findings to stakeholders through clear reports and visualizations.

Software Developer Intern (Fellowship Program) — ClickChain Academy
Jan 2026 – Mar 2026 · 12 weeks

- Developed full-stack web applications, integrating frontend and backend systems.
- Worked in an Agile team with sprint planning and regular collaboration.
- Contributed to real-world, production-level projects across the full lifecycle: design, development, testing and deployment.
- Used Git for version control and team collaboration.

Projects

- **Olist E-Commerce Sales & Customer Intelligence Platform** — End-to-end pipeline on the Olist dataset: data loading and cleaning in Python (SQLAlchemy), SQL analysis in MySQL, and a Power BI dashboard with DAX measures for sales, customers and delivery performance. GitHub
- **Maharat — Skilled-Worker Marketplace App (In Development)** — Mobile app connecting customers with nearby electricians, plumbers, carpenters, painters, technicians and labour contractors. Customers post a job, nearby workers send offers through GPS-based matching, and the customer compares, books and leaves a verified review. Supports Customer, Worker, Contractor and Admin roles, with a simple bilingual (English/Urdu) interface for low-end phones. Built with a team of 3–4 using Flutter, Python FastAPI and PostgreSQL; interactive prototype complete, production build in progress.
- **Amazon Clothing Sales 2025 — Power BI Dashboard** — Three-page interactive report (Sales Overview; Product, Category & Brand Analysis; Review & Delivery Insights) built on DAX measures for revenue, orders, AOV, quantity sold and ratings. Analyzes performance by region, brand, category, customer age group, payment method, device type and delivery time, with slicers for interactive filtering. GitHub
- **Zameen.com Property Data EDA** — Exploratory analysis of Pakistani real-estate listings by city, property type and size, using Python. GitHub

- **Hospital Management System (SQL)** — Relational database design for patients, doctors, appointments and billing, with analytical SQL queries for reporting. GitHub

Education

Degree	Institution	Years
BS Data Science	Islamia University of Bahawalpur	2024 – Present

Certifications

- **Data Analyst Certificate** — atomcamp, Nov 2025 · Verify credential
- **Certificate of Fellowship (12-Week Fellowship Program)** — ClickChain Academy, Jan 2026 – Mar 2026
